OBJECTIVE

Computer Science and Engineering student with experience on front-end development looking for new professional experiences and knowledge

EDUCATION

Computer Science and Engineering, Eafit University   Expected 2024
Relevant Coursework: Programming Paradigms, Software Architecture and Databases.

SKILLS

JavaScript	2 years
React	2 years
Tailwind	1 year
Python	1 year
Java	1 year
C++	1 year

EXPERIENCE

Front-End Developer   Jan 2022 - Apr 2022
Free Lance   *Mexico, DF*

- Created different components for the UI using React 18 and Tailwind for e-commerce app.
- Manage some REST API fetching and the app context.
- Optimized some process using React 18 hooks.

Academic Monitor   Jul 2022 - Nov 2022
EAFIT University   *Medellin, CO*

- Helped the students to solve different kind of questions about OPP and functional programming.
- Gave consultancies about different kind of projects related withg OPP and functional programming.
- Developed simple programs in Java, C++ and Haskell.

COURSES

Front-End Web Developer by Meta   July 2022
Front-End development with React   Jul 2022 - Nov 2022

PROJECTS

Syntax Reader. I created a syntax reader that can read different mathematic input and can do any mathematic operation. I used binary tree as main data structure and it was developed in C++.

SafeZone App. I created a Web App that helps the tourists to see where are the most secure zones to visit and reduce the theft possibilities. Used React 18 for front-end and node.js and Express to create a REST API.

EXTRA-CURRICULAR ACTIVITIES

- I've been professional sport men in motorcycling for 6 year, I've been 6 times national champion and one time latin american champion, I know what is to be a professional and how to be succesfull in my goals.
